

Group members: _____

Assigned Topic: language (Arabic influence on Spanish language, place names, and family names)

Project Overview

Choose ONE of the following presentation methods:

- Create a model of 2-3 inventions/innovations and describe them. (Be sure your models are well-designed and that you explain how they work, when they were developed, and why they were important.)
- Create a photo collage, powerpoint, or other visual display with **clear** explanations.
- Create a video-taped or live performance where one student goes back in time and interviews 3-4 famous people or has people (inventors, architects, everyday people) talk about or demonstrate their work. (Be sure your work is well-organized and that each person or idea is introduced so that the audience knows who/what you are talking about.)

You will present your project to the class on the following date: _____

How you will be evaluated:

- contribution to understanding your assigned topic
- organization of the project
- clarity of explanations
- creativity
- participation in the project of all people in your group

Group members: _____

Assigned Topic: science, technology, and math

Project Overview
