

### Evidence Card for Investigator #1 – Job’s Tomb

Omanis believe that the Old Testament Biblical figure of Job – honored by Jews, Christians, and Muslims – is buried in the hills on the edge of Salalah. The place said to be his tomb is an important pilgrimage site, where many Omanis come to pray. Despite the mist that envelops the region on summer days (due to an unusual micro-climate that makes the area unusually cool and damp), the tomb is an impressive sight.
