Set parameters on the assignment. Are students to focus on major cities? Natural features? Museums? Cultural Aspects? Do they include air ports and train stations? Students must know how many pictures to include on a poster, with descriptions, that photos must not be blurry. [Grade for participation]

> **Student Research** Using the internet, student should search, evaluate, then print and annotate sources for each country they will be researching. They will also need to print / save maps, photos, videos, music, schematics, etc. to produce the poster / power points. The instructor should monitor the students / groups to make sure the research is academic in nature and acceptable. [Grade for research, grade for annotation]

> **Annotated Bibliography** Students / groups should also produce an annotated work cited page. Websites from which photos / videos / music are taken must be cited, described, and evaluated. [Grade for Annotated Bibliography]

> **Poster / Power Point** Students use their media (photos, videos, music) and research to produce their assignments. [Grade for poster / power point]

> **Presentation** First, create a rubric to grade the presentations with the students – the link provided is only one example. http://april.onthemarch.co/class-presentation-rubric/
Students discuss their findings, noting similarities, differences, and interesting findings from their research [Grade for presentation]

**Modifications**
LOW > Students may be provided with research, group annotate, or be allowed extra time as necessary.

HIGH > Set them loose (with time limit) to produce to their hearts desire.
