STEP 4: RESEARCH AND FACT FINDING

As you research, try to find the answers to these questions:

Describe the discovery / technology being used in detail. In other words, what are we learning from the technology being used? (Example: CT scans have taught us .... About mummies. Another example: From using LiDAR, we have learned.....)

What do these discoveries tell us about life in ancient Egypt that we didn’t know before?

What do these discoveries confirm about what we already knew about life in ancient Egypt?
What questions do you have based on this new technology and the discoveries being made?

How do you think the discoveries being made will inform and influence future research about ancient Egypt?
