

## Newscast Guide 101

Could someone raise your hand and tell me where many of your families get oil? Oil is also used for \_\_\_\_\_.

Yes, it's clear we need and use oil, but where does it come from? Oil was formed a very long time ago, and the process of

---

---

---

---

A lot of the world's oil lies buried under \_\_\_\_\_ . One reason for this is that \_\_\_\_\_ of years ago this area was \_\_\_\_\_ . Another reason that oil formed under Southwest Asia was has to do with the \_\_\_\_\_ of the \_\_\_\_\_ .

If you think sitting through class is a tough job, it's nothing compared to getting oil out of underground \_\_\_\_\_ and pockets. Oil companies

Sometimes if that doesn't work, \_\_\_\_\_ inject

---

---

Oil companies turn crude oil into many things that we use everyday such as \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, and \_\_\_\_\_.

Did you know that oil was not evenly distributed across the world? The most \_\_\_\_\_ in Southwest Asia is located in the largest country in this region \_\_\_\_\_ . It has about \_\_\_\_\_ of the world's \_\_\_\_\_ that lie under its desert ground.

Please look on page 360 of your *Geography Alive!* Book as we review how oil was formed. (Read through "From Sea Creatures to Oil" and all photo boxes.)

Finally, we will explore the chart at the top of page 361 together at the end of class.
