

# REVIEW OF ARABIC IN SPANISH

2-27-2017

# The Moors in Spain

- They controlled the peninsula between 711-1492.

# Cultural and Technological Advances

---

- Greek philosophy
- libraries, universities, translations
- agriculture (canals and the water wheel)
- Mathematics (Arabic numerals)
- Food (spices and ingredients)
- Architecture (Cordoba Mosque, Alhambra)

# Cultural and Technological Advances

---

- open and tolerant culture
  - ▣ Muslims
  - ▣ Jews
  - ▣ Christians
- ambassadors
- knowledge through translation

# Linguistic Influence

- Arabic's influence on Spanish is mostly “external,” because internal structures (such as verbs, grammar, phonology, etc) are preserved.
- Arabic's influence on Spanish is mostly “lexical,” (vocabulary).

# Linguistic Influence

- Prefixes

  - α-

  - αl-

- Suffixes

  - ί
